Public Information: 2015-16 Enrollment

Our mission to teach teachers and school leaders to prepare all students for school and career success is a **commitment to closing the opportunity gap** – at all levels.

Relay seeks to recruit and retain a **diverse** population of effective and inspiring teachers and school leaders.

Our student population makes progress toward this goal. As of fall 2015, Relay's total student enrollment was **1,739**. More than half (53%) of the total student population identified as people of color. Among our students enrolled as Teaching Residents, that figure was **64%**.
